

# To Help Customers Make an Informed Choice

Each Studio Tarkett vinyl has an information tag explaining the content of the product. This is shown on the backing of the vinyl and also in the technical information on the product swatch:

% of renewable content

% of recycled content

Level of VOC emissions (TVOC at 28 days)

If the vinyl is produced with phthalate free technology.

The phthalate-free plasticizers selected by Tarkett are approved for food contact containers and can be used for toys intended to be placed in the mouth by children.

## Your new vinyl flooring is suitable for use in:

*This information is shown in the technical details on the product swatch.*
