

TarkoClean

Technical Information

DESCRIPTION

Tarkett TarkoClean is an efficient cleaner for all types of hard floors and is very economical in use. TarkoClean is used for daily cleaning and is suitable for both domestic use and for public environments. TarkoClean was designed specifically for use on wooden floors but is also suitable for laminated floors, painted or varnished surfaces, vinyl flooring, stone, tiles, glass and sanitary appliances.

TarkoClean is extremely effective against dirt and yet very gentle on the surface layer of the floor. TarkoClean has unique wetting properties and soil release properties that were previously considered impossible to achieve without adding petroleum-based solvents. TarkoClean is free from organic solvents, colouring agents and phosphates, it is biodegradable and gentle on the skin. Properly maintained floors are often the key to ensuring long-term customer satisfaction.

TarkoClean Concentrate 1 Litre	Details
Type	Neutral universal cleaner
Density	1.00 kg/litre
pH	Approx. 10.3 in concentrate, approx. 8 in solution
Solvent	Water
Application temperature	15-25°C
